

March 24, 2020

Dear Community Partners,

At Joseph Brant Hospital we are committed to exemplary health care. We are focused on clinical excellence, quality and patient safety through Compassionate Care, Exemplary Service, Every Time.

As the impacts of COVID-19 continue to unfold, keeping our patients, families, physicians and employees and the entire Burlington community safe is our top priority during this pandemic.

To protect patients, families and our teams the Hospital is actively screening everyone entering our Hospital. This screening process ensures people who may be at risk of having the virus are identified and receive a proper medical assessment and care, while protecting the employees, physicians and patients of the Hospital. These new procedures have increased our utilization of Personal Protective Equipment (PPE). However, the active screening process is just one component of our plan for safeguarding the Hospital.

Another key component is ensuring all staff are properly protected when providing care including use of PPE, which will quickly utilize the Hospital's existing supplies. Earlier this month, the World Health Organization (WHO) warned of shortages of PPE required to protect front line healthcare workers from COVID-19. The hospital is experiencing the effects of this shortage in its attempts to replenish its supplies and build its stock piles to ensure sufficient supplies exist to care for the anticipated COVID-19 patients. We are continuing to seek PPE to protect our patients and staff.

We are asking for your assistance, in this global time of need, in supporting the Burlington community and its Hospital staff in delivering exemplary health care. We are hoping your business may want to redirect Personal Protective Equipment to support Joseph Brant Hospital's commitment in providing the right care at the right time to our patients during this pandemic.

A detailed listing of Personal Protective Equipment that the Hospital is seeking and utilizes in this pandemic is attached. **All donations must be unused, in original, unopened packaging, and not expired or damaged in any way.**

Please contact us at [coviddonations@josephbranthospital.ca](mailto:coviddonations@josephbranthospital.ca) or call us at 905-632-3730 ext. 1314.

Thank you for your leadership and support during these unprecedented times.

Regards
